

OSA MUSA

WORKFLOW MANAGER

Arlington, TX | omusawrk@gmail.com | 469-573-0227 | [LinkedIn](#)

SUMMARY

I design and deliver practical, sustainable workflow and data solutions that turn fragmented processes into reliable, repeatable systems. Drawing on cross-functional experience in pipeline architecture, automation, and process governance, I prioritize clear ownership, low-friction implementation, and long-term maintainability so teams can focus on outcomes rather than upkeep. I combine technical fluency with collaborative stakeholder engagement to translate business needs into scalable operations and resilient decision-making frameworks.

SKILLS

- | | | | |
|-----------------|--------------|------------------|-----------|
| • Generative AI | • Git | • REST API | • JSON |
| • Python | • JavaScript | • SQL | • VBA |
| • Excel | • Power BI | • Tableau | • XML |
| • Snowflake | • Zapier | • Power Automate | • Alteryx |

PROFESSIONAL EXPERIENCE

Workflow Manager, Ozment Media

Sept, 2024 to Present

Spearheading digital transformation by architecting automated pipelines and integrating data systems. Reducing manual tasks through REST API development and CRM optimization, establishing scalable infrastructure to support growth.

- Designing pipelines, reducing turnaround by 35% and increasing capacity by 2.5x.
- Integrating GHL CRM via APIs and Zapier, saving 15+ hours weekly.
- Automating GHL tracking for 100+ accounts, enhancing reporting accuracy by 40%.
- Deploying AI and Python, achieving 20% higher precision and 50% lower latency.

Business Analyst, Altus Group

Mar, 2022 to Feb, 2024

Developed Power BI dashboards using DAX and Power Query to visualize key business metrics. Utilized SQL for querying Snowflake databases, preparing data for comprehensive visualization. Created custom VBA macros alongside Snowflake, Alteryx, and Power Automate workflows, enhancing legacy automation and operational efficiency.

- Automated status reporting via Power Automate, integrating Teams and SharePoint with Power BI.
- Architected live Snowflake-to-Excel pipelines, automating valuation for 1,000+ properties.
- Boosted appeal efficiency 100x through Power Query and VBA for PDF packages.
- Increased report efficiency 12,000% via VBA macro for generating photo-ready Word/PDF files.

Insurance Agent, 3 Mark Financial

Aug, 2016 to Mar, 2022

Advised clients on financial and insurance products, translating complex terms into clear, actionable guidance.

- Conducted thorough needs assessments and recommended tailored insurance and financial solutions.
 - Employed active listening and consultative communication to build trust and long-term client relationships.
 - Managed client communications and follow-up to ensure understanding of coverage, policy details, and claims processes.
-

EDUCATION

The University of Texas at Dallas
Bachelor's Degree - Business Administration

Dec 2018

TECHNICAL PROFICIENCIES

Microsoft Power Platform: Power BI, DAX, M Language, Power Automate, Power Query
Advanced Excel: VBA, Macro Development, Data Modeling
Data Science (Python): Pandas, Seaborn, Matplotlib, Streamlit
Data Architecture: Snowflake, ETL, Data Governance, Automated Workflows
Business Systems: GoHighLevel (GHL), CRM Optimization, REST API Integration

LICENSES & CERTIFICATIONS

Google Advanced Data Analytics Certificate, Coursera	May 2024
Microsoft Certified: Power BI Data Analyst Associate, Microsoft	Dec 2022
General Lines Agent - Life, Accident, Health and HMO	Oct 2017
